

RUCHITHA R

Bangalore, Karnataka 560073 | 9480957145 | ruchitharuc@gmail.com | www.linkedin.com/in/ruchitharr | github.com/ruchitha460-sys

EDUCATION

St. Paul's College, Bangalore

Bachelor of Computer Applications | 2023 - 2026

CGPA: 7.9 | Relevant Coursework: OOPs, Data Structures, Operating Systems, Data Analytics, Software Testing, Machine Learning

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL

Front-end: HTML, CSS, Streamlit

Back-end: FastAPI, Flask, MongoDB

Tools & Platforms: GitHub, VS Code, Postman, Excel, Power BI

AI Tools: ChatGPT, Claude, Cursor IDE

PROFESSIONAL EXPERIENCE

Cyber Security Intern - IBM

March 2026 - May 2026

- Worked with Kali Linux to perform command-line operations, file management and system navigation.
- Performed network scanning and information gathering using tools like Nmap, WHOIS and Wireshark to identify hosts and services.
- Applied cyber security concepts including cryptography, hashing and encryption for securing data and understanding vulnerabilities.
- Conducted vulnerability scanning and basic exploitation using Nmap, Metasploit and exploring bug bounty practices for web security testing.

Software Testing Intern - CODTECH IT Solutions

Feb 2026 - March 2026

- Designed and executed automated test scripts using Selenium WebDriver (Python) to validate web application workflows such as login and navigation.
- Performed REST API testing using Postman by creating and validating GET and POST requests, verifying status code, authentication and JSON responses.
- Conducted security testing on web applications to identify vulnerabilities like Cross-site Scripting (XSS) by injecting test payloads and analysing application behaviour.
- Implemented load Testing using Gatling to simulate virtual users, measure response time, throughput and evaluate system performance under simulated traffic conditions.

PROJECTS

Veriscope – AI Research platform | Python, Streamlit, Langchain, HuggingFace, FAISS

- Developed an AI-based document Q&A system using RAG and LLM for context-aware retrieval from PDFs and URLs. Built an embedding and vector search pipeline with HuggingFace and FAISS and optimized chunking for improved accuracy, Designed a Streamlit interface for real-time interaction.

Spotify Music Streaming Dashboard | Power BI

- Developed an interactive Power BI dashboard analyzing Spotify songs, artists and streaming trends. Implemented filters and slicers for dynamic insights and performed data transformation using Power Query.

CERTIFICATIONS & AWARDS

Microsoft Azure Fundamentals (AZ-900) | Microsoft, 2025

Cyber Security & Ethical Hacking Workshop | NCIIPC (Govt, of India), 2024

Anthropic Claude API Course | Anthropic - Prompt Engineering, MCP, RAG
